Igmanska 11 Hadžići

I would describe myself as someone who has a creative mind and a big need for learning. I love to solve challenges and understand things on a deeper level - that is precisely why I chose this field of study because those two things allow me to better myself.

### EXPERIENCE

#### Fullstack Intern

ZIRA | 2023 - 2023

Created a sound repository in a team environment using CSS, Java, Angular, Maven, Spring, ActiveMq..

#### UI/UX design

Tech387 | 2022 - 2022

A two-week-long program of learning about UI/UX and the tools necessary to make and design the best possible UI/UX.
