Mustafa Isić

I would describe myself as someone who has a creative mind and a big need for learning. I love to solve challenges and understand things on a deeper level - that is precisely why I chose this field of study because those two things allow me to better myself.

Experience

September 2024 - November 2024

Android Developer | **MobTech**

- Developed Android applications using **MVI** and **MVVM architectures**, ensuring maintainable and scalable code.
- Implemented data persistence with **Room Database** and integrated APIs using **Retrofit** for seamless backend communication.
- Designed and optimized **custom UI components**, dynamic lists with RecyclerView and adapters, and handled navigation flows using Jetpack Navigation.
- Configured and managed project dependencies and build processes using the **Gradle system**, ensuring efficient development workflows.

February 2023 – April 2023

Full – Stack Developer | **ZIRA**

- Gained hands-on experience with modern technologies, including **Java**, **Spring**, **Maven**, **Angular**, **CSS**, and **ActiveMQ**, by developing full-stack features
- Worked within an **Agile framework**, participating in daily stand-ups and weekly sprints to deliver high-quality code in a collaborative team setting

Education

Faculty of Information Technologies | **Mostar, Bosnia and Herzegovina**

2019 – Ongoing

Major: Software Engineering

Certificates of Completion

- In recognition of my excellence, efforts and achievements in being an outstanding intern in ZIRA TALENT ACADEMY 2023.
- Certificate of Completion for successfully finishing the two-week Product Arena v1 program.
